ITEM 3b

Matters arising from 11 September 2026 SRA Board meeting

1. Amend draft minutes of previous meeting to reflect comments.

2. Re-schedule the working group meeting to discuss flood risk impacts of new developments.

3. Prepare and circulate a short summary explaining the different pumping programmes and funding streams, including their relationship with the £50 million programme.

4. Provide further information on temporary pumping at Bridgwater, pumping in the Brue catchment and the future allocation of temporary pumps.

5. Environment Agency to complete and publish the revised temporary pumping trigger-point arrangements.

6. Continue progressing the relevant Section 19 flood investigation reports.

For information relevant to points 3, 4 and 5 see Item 3b Appendix 1 as supplied by the Environment Agency and link Somerset Levels and Moors: reducing the risk of flooding - GOV.UK
